-

A curious and empathetic individual, looking to continuously improve and grow. I thrive in a team and always make sure to support and help others around. "If you want to go fast, go alone. If you want to go far, go together".

- **Programming Languages:** JS/TS, Python
 - **Test Frameworks:** Playwright, Vitest
 - **Performance/Contract Testing:** k6, Pact, Mockoon
 - **CI/CD & Cloud:** Github Actions, AWS, Docker, Kubernetes, Terraform
 - **Databases:** SQL, NoSQL
 - **Middleware/Brokers/Monitoring:** Redis, BullMQ, Testcontainers, Sentry, Posthog
-

Senior QA Engineer | Psyomics - Mental Health platform | Oct 2025 - Present

- Implemented a POM E2E Playwright/TS modular framework within a Nx monorepo - NestJS microservice architecture app and React frontend all deployed on AWS
- Managed CI/CD pipelines with Github Actions.
- GraphQL and REST API automation testing
- Performed load testing using k6 and distributed load testing on AWS
- Carried out manual, regression, and exploratory testing.
- Used Terraform and Github Actions to provision ephemeral PR envs so that E2E suites would run against mirrored production infrastructure
- Developed automation scripts and pooling mechanism for BullMQ jobs and SMS interception for referral creation within the system
- PICT - Pairwise Independent Combinatorial Tool - created PICT models to optimize test coverage against complex multi branching patient surveys and 27 clinical measures

Senior QA Engineer | TAINA TECHNOLOGY | Sept 2024 - June 2025

- Designed and developed web UI and API frameworks using Playwright with Typescript.
- Managed CI/CD pipelines with Github Actions.
- Conducted unit & integration testing for a NestJS REST API using Vitest.
- Performed load testing using k6.
- Carried out manual, regression, and exploratory testing.
- Ensured data integrity for an AWS data warehouse using dbt for data model validation.

Senior QA Automation Engineer | DEFAQTO | Mar 2024 - July 2024

- Designed and developed E2E frameworks for web UI and API using Playwright/TS and Cucumber BDD.
- Managed CI/CD pipelines using Github Actions.
- Implemented PactJs consumer-provider contract-driven testing on a NestJS microservices backend on AWS.
- Handled ETL and data processing with PySpark on AWS Glue and EMR.

Mid QA Engineer | MINDER A | May 2023 - Dec 2023

- Designed and developed a Playwright E2E framework with Typescript and the POM pattern.
- Performed manual, regression, and exploratory testing.
- Automated AWS services using Boto3 and Lambda.
- Conducted API load testing using k6-Grafana cloud.

QA Automation Engineer | NAGARRO | Jul 2022 - May 2023

- Maintained and developed a framework using Playwright/JS and Cucumber BDD.
- Created and executed manual tests.
- Executed SQL scripts to check data integrity.
- Performed API manual testing using Postman.
- Ran and maintained k6 load testing scripts.

QA Automation Engineer | DIGITAL DISTRIBUTION GROUP | May 2021 - June 2022

- Created and manually executed tests for an iOS meditation app and its CMS.
- Maintained and developed a Playwright-based framework with Typescript.
- Tested APIs using Postman.
- Handled bug reporting and performed regression and smoke testing.

Lead QA | QUANTIC LAB | May 2020 - Dec 2020

- Developed platform-specific test strategies for PS5 and Xbox One.
- Mentored and onboarded new joiners, coaching a team of 15 people.
- Oversaw test strategy, project management, and coordinated testing efforts.
- Managed task allocation and resources.
- Collaborated closely with game designers, developers, and producers.
- Handled shareholder reporting.

Lead QA Mobile QA Tester | GAMELOFT | Apr 2019 - Dec 2019

- Led and managed a team, including mentorship, task assignment, and performance evaluation.
- Fostered a positive and productive environment.
- Oversaw test strategy and project management, including resource allocation and risk analysis.
- Collaborated with designers, developers, and producers to ensure quality.

Senior Mobile QA Tester | GAMELOFT | Feb 2018 - Apr 2019

- Developed test strategies for various mobile gaming genres across 36 production titles.
- Designed, reported on, and executed test cases.
- Mentored and guided junior testers.
- Managed documentation and tool selection.

Mobile QA Tester | GAMELOFT | Feb 2016 - Feb 2018

- Performed exploratory testing on iOS, Android, and Windows.
- Identified and reported bugs.
- Designed and executed test cases.
- Conducted regression, smoke, localization, and compliance testing.
- Carried out performance and stress testing using internal tools.
